PROFESSIONAL SUMMARY

Software Developer specializing in enterprise-grade web applications, robust state management, and seamless API integrations. Leverages React, Next.js, and TypeScript to architect scalable frontend systems, optimize data flow, and deliver high-performance digital solutions

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), Python
Frontend: React.js, Next.js, Tailwind CSS, Redux Toolkit
Backend & APIs: Firebase, REST APIs
Tools: Git, GitHub, VS Code, Vite, Vercel, Postman
Concepts: Responsive Design, State Management, SPA, DOM Manipulation, CRUD

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) 2023 – 2026
Cluster University of Srinagar CGPA: 7.0

PROFESSIONAL EXPERIENCE

Artificial Intelligence Intern Dec 2024 – Feb 2025
NIELIT in collaboration with Dept. of IT, Sri Pratap College Hybrid

- Developed end-to-end data pipelines and trained predictive Machine Learning models utilizing Python, Scikit-learn, TensorFlow, and PyTorch.

Data Analyst Jan 2024 – Jun 2024
TELUS International Remote

- Executed rigorous data annotation and validation for Search By Search (SBS) and Mapping projects, directly enhancing the spatial accuracy of location-based datasets.

PROJECTS

GemiFlix (AI-Powered Movie Application) Live Demo | GitHub
React, Redux Toolkit, Tailwind CSS, Firebase, TMDB API, Gemini AI

- Built a movie discovery platform using React and Redux Toolkit with centralized state management and responsive UI.
- Integrated TMDB REST API for dynamic movie data and Gemini AI for personalized movie recommendations based on user queries.
- Implemented Firebase Authentication (including Google Sign-In) and Firebase Database to manage user accounts, secure authentication workflows, and store personalized features like a custom liked movies watchlist.

Portfolio Website Live Demo | GitHub
Next.js, React, Tailwind CSS, Framer Motion, Vercel

- Designed and deployed a responsive developer portfolio using Next.js and Tailwind CSS with reusable, component-based architecture.
- Integrated Framer Motion for smooth UI animations and showcased 5+ frontend projects, including GemiFlix, BMI Calculator, Weather App, and BMW Website.

Dynamic To-Do Application Live Demo | GitHub
HTML5, CSS3, JavaScript (ES6+)

- Developed a responsive task management application with full CRUD (Create, Read, Update, Delete) functionality.
- Implemented dynamic DOM manipulation, event handling, and task progress tracking using JavaScript.
